ineo⁺35

colour | 30 ppm
monochrome | 30 ppm

The A4 no-worries office solution

There is little difference between small companies and departments compared to big corporations when it comes to the daily business of printing, copying, scanning or faxing. One difference is, however, that A3 formats are hardly needed in smaller businesses and finishing requirements such as punching and stapling are often fewer. Nevertheless, data security and ease of use should not be compromised. In these cases the ineo⁺ 35 is the ideal solution. It's an A4 printing system which produces high-quality colour as well as black and white printouts, copies, scans and faxes, to name just the main functions.

Furthermore, the ineo⁺ 35 has a wide range of security features, such as hard disk encryption and the possibility of user authentication. In short, it is a system that meets virtually every need and, given its versatility, at an amazingly reasonable price. The result: Considerably better quality outputs, cost optimization as a result of system bundling, a smaller footprint and reasonable printing and copying costs, without cutting back on data security and ease of use.

Economical operation and cost control

Acquisition cost and page prices are crucial factors when choosing a printing system. Some systems have a high purchase price but are economical to run and with other systems the opposite is the case.

The ineo⁺ 35 offers both: A fair price-performance ratio in terms of hardware because the basic version already includes most functions as standard such as duplex printing and copying, as well as scanning and faxing. In terms of running costs, the price of black and white printing is nearly as economical as printing on an A3 system while the price for colour printing is equally low. Bundled in a single system, multifunctionality cuts energy costs and leads to greater efficiency within the business in the long run. The ineo⁺ 35 thus exploits potential savings which are still untapped in many companies.

Professional quality and expansive adaptability

A printing system should offer quality that impresses. High-quality colour and black and white prints are expected for important business documents, advertising flyers or customer presentations alike. Just like the A3 systems, the ineo⁺35 wins over customers with its high-quality printing and copying performance, due to the ultra-fine polymerised toner particles. It completes the picture with an impressive media flexibility, processing a wide range of different paper weights and formats. Without doubt the ineo⁺35 scores top marks.

High quality

> The ultra-fine, polymerised toner particles guarantee razor-sharp images and brilliant colours.
> A new image processing algorithm delivers improved text recognition and leads to a refined image quality.

Efficient

> Copies and prints every job quickly and reliably at speeds of up to 30 pages in colour and black and white.
> The system handles media weighing of up to 210 g/m² even when using the standard paper tray and duplex function.

User friendly

> Easy menu navigation using the big colour touch-screen display.
> It is easy to administer the ineo⁺35 from a PC via the system's WebConnection.
> Meter counts and system status information can be transmitted automatically to your DEVELOP dealer using the optional ineo Remote Care maintenance system.
> Shortly before the maximum print volume is reached, the toner is ordered automatically via ineo Remote Care – It couldn't be simpler!

ineo⁺ 35

General Data

Type of machine
Multifunctional system

Printing and copying speed
> A4
Max. 30/30 ppm (colour / black & white)

Print system
Laser

Gradation
256

Paper feeder
> Standard: 350 sheets, max. 1,350 sheets
> 250-sheet cassette (A6-A4, 60–210 g/m²)
> 100-sheet bypass (A6-A4, 60–210 g/m²)
for plain paper, recycling paper, thick paper

Paper format
Max. 216 x 356 mm

Printable area
Max. 207.6 x 347.6 mm

Warm-up time
Less than 45 seconds

Dimensions (w x h x d)
555 x 550 x 508 mm (without options)

Weight
Approx. 39 kg (without consumables)

Power
220-240 V / 50 Hz

Print Specifications

Controller
> Embedded controller with 800 MHz

Memory
Controller uses system memory
> 1.5 GB RAM
> 250 GB HDD standard

Resolution
600 x 600 dpi

Network protocols
IPX/SPX, TCP/IP, IPv4/IPv6, Ethertalk, IPP, SNMP, HTTP, HTTPS

Emulation
PCL 5e/5c, PCL 6, PS 3, XPS (Version 1.0)

Interfaces
Ethernet 10/100/1000 BaseT, USB 2.0, Host USB

Driver
Windows 2000/XP/Vista, Server 2003/2008, Windows 7, Mac OS 10.x, Linux

Print functions
> Duplex print, Cover mode, Watermark,
> Secure printing and Direct Print from USB, PDF (version 1.7)

Scan Specifications

Type of scanning
Scan to E-mail/FTP/SMB/USB/HDD/WebDAV, Twain Scan (RAW Mode)

Resolution
Max. 600 x 600 dpi

Scanning speed
Up to 30 opm

Size of originals
Max. 215.9 x 1,000 mm

Scanning formats
TIFF, PDF, Compact PDF, Encrypted PDF, JPEG (single page only), XPS Page Setting (Single Page/Multi Page)

Scan addresses
Max. 2,000

Copy Specifications

Document feeder
> Duplex document feeder (standard)
> 50 sheets (35–128 g/m²)
> A5 to A4

Copy pre-selection
1 – 999

Zoom
25 – 400 % (0.1 % increment)

First A4 copy
12/10.1 seconds (colour / black & white)

Memory
1.5 GB

HDD
250 GB

Resolution
600 x 600 dpi

Copier functions
2/4-to-1 copy, Interrupt Mode, Separate Scan, Card Shot

Fax Specifications

Compatibility
G3/Super G3, MH, MR, MMR, J-BIG/ECM

Transfer rate / transfer speed
33.6 kBit/s, approx. 3 sec. ITU-No. 1

Fax memory
Uses system memory

Fax functions
PC-Fax, Polling, time shift, fax forwarding, transmission report, Internet FAX

Options

> Max. 2 cassettes 500-sheet (A4; 60-90 g/m²)
> Copy desk
> Working table

Software Solutions

> Data Administrator
> Enterprise Device Manager/Plug-in
> WebConnection
> ineo Remote Care (optional)
> EMS Plug-in
> Enterprise Account Manager (optional)
> Card solutions (optional
> Enterprise Authentication Manager (optional)
> Enterprise MyPrint Manager (optional)
